

Quality Time

I got you, on my mind
I'd really like to, spend some quality time
and I need your, I said, love tonight

Every morning, when the rooster calls
And every evening when the sun does fall
I want your body, I want your mind
come to me girl, please, make it mine

I got you, on my mind oh
I'd really like to, spend some quality time
yes I need your, I said, love tonight

Every morning, when the rooster calls
And every evening when the sun does fall
I want your body, I want your mind
come to me girl, please, make it mine
