

Won't crack a smile
Don't go to work
I only end up feelin' like a total jerk

I made a move and I blew it
I hate the way I do it sometimes
So quit your messin' around in my mind
It was too late
And now I'll never ever get another date
I take a shot and I blow it
I hate the way you know it sometimes
So quit your messin' around

Cuz I find what I need when we hit the right speed
And it's perfect
And I can't take my time when there's somethin' on my mind
And it's worth it

I wanna say screw it, there's nothin' left to do, it's ok
Just quit your messin' around in my mind
Just quit your messin' around in my mind
Now you're doin' it every day

I start to shake
Can't I relax
When was the feelin' like you gave me somethin' back
I can't control how I like you
Don't wanna take a hike you know why
So quit your messin' around in my mind
I want a sign
I want a mark to let me know that you're mine
I wanna move lemme show it
I promise I won't blow it this time
So quit your messin' around
Cuz I find what I need when we hit the right speed
And I'm flyin'
And I can't take my time when there's someone on my mind
Ain't no lyin'

I wanna say screw it, there's nothin' left to do, it's all right
Just quit your messin' around in my mind
Just quit your messin' around in my mind
Now you're doin' it every night

I'm thinkin' aw baby don't you go
I really miss the way you tease me so
Can't take it when you've got me blind
I wanna be your trouble all of the time
I'm thinkin' aw baby doll, don't you want me at all
I've been waitin' all night honey just for your call
Aw that's not all

Just quit your messin' around in my mind
Just quit your messin' around in my mind
Now you're takin' up all of my time
Just quit your messin' around in my mind
Just quit your messin' around in my mind
