

FORCE OF NATURE

INTRO

Everybody in the game deals with fear and insecurity, We just mask it with bravado
And I'm not innocent. I'm still trying to drop the act
But I can't do someone else's script anymore
This is me embracing with mine with a vengeance

Verse 1

Come to find atimes I am not the man that I pretend to be
Seem to crave applause it's been a major flaw, my worst enemy .1
And I'm working to break it down chemically, all I need is the remedy
Cuz all the venom is getting me, Black Jason Borne, I'm here to settle Identity .2
Won't go back to performing for people's enjoyment,
And bleeding in torment
This is not me, I'm calling for reinforcements
It's a knock-off I came to seek and destroy it .3
Heat seekers deployed, got the target in sight
and I'm keeping the spoils
Beat my Dark Side with the Force
Follow the light it's only right I endorse it
It's gorgeous

HOOK

It's craves me, it calls
And this is greatness
So I will never fall
(Came through hell now you're dealin with a force of nature, that can't fail)

It's craves me, it calls

And this is greatness

So I will never fall

(In case you can't tell dealin with a force of nature, that can't fail)

Verse 2

Atypical, live like me and people will stay critical

Finished High School but I didn't go on, considered a straight criminal .1

The fact that I'm able to feed my kids folks consider a straight miracle

So cynical, changing the globe literal,

But critics only consider the dough pivotal .2

And we're good so don't sweat it

Eat just like we should so don't sweat it

There's mad love in the home, my own Heaven

But they trip like I'm gripping the chrome I don't get it .3

Yes I stay underrated

But all of the hatred is training for greatness

Painstaking, need to remain patient

God moves Heaven for people who seem basic .4

HOOK

OUTRO

Stay calm & breathe easy

Even with the critical mind speaking

Faint of heart be calling it high treason

But those who believe will surely defy reason
Demilitarize demons
Shine brighter than 75 beacons
You can revive legions
Those who believe will surely defy reason

Relax & breathe easy
Even with the critical mind speaking
Faint of heart be calling it high treason
But those who believe will surely defy reason
Demilitarize demons
Shine brighter than 75 beacons
You can revive legions
Those who believe will surely defy reason
