

It Must Be Roses

Sunflowers bring any room to life
Their petals turn to the sun
But if you want to make me your wife
Bring me roses, it must be roses

Roses, roses
Only roses will do
If you really love me
You'll bring me roses, it must be roses

Tulips are bright and cheerful
Perfect for mother's day
But only roses will do my love
If my father is to give me away

Chorus:
Roses, roses
Only roses will do
If you really love me
You'll bring me roses, it must be roses

Lillies are fine for you mothers grave
Respectful honest and true
But if you want to show me your love
Only roses will do

Chorus

A daisy-chain for our flower girl
Carnation on your lapel
Irises for the bridesmaids
These are all fine and well

C F
But I'll carry
Chorus

Once we're married, and you're my groom
I'll live with you til I die
When I die you'll fill my room
With roses, only roses

Chorus

If you really love me
You'll bring me roses, it must be roses
